Summary

Passionate and results-driven software engineer with a proven track record in developing and delivering robust back-end and web applications. I bring a meticulous and detail-oriented approach to my work, utilizing a diverse skill set and staying current with cutting-edge technologies.

Technical Proficiency:

- 1) Programming Languages: Java, JavaScript, HTML, C, C++, TypeScript, and C# in .NET, empowering me to address a broad spectrum of development challenges.
- 2) Database Management: Skilled in working with SQL, Oracle, and MongoDB databases, ensuring seamless data management and retrieval.
- 3) Server Management: Experienced in handling Apache server, SQL Server, and Node.js, contributing to efficient application deployment and performance optimization.
- 4) Development Tools: Well-versed in Eclipse IDE, Git, and NetBeans IDE, enhancing productivity and enabling collaborative development.
- 5) Methodologies: Adept in Object-Oriented Design, Agile Software Development, and Object-Oriented Programming (OOP), ensuring structured and efficient software development processes.
- 6) Certifications: Certified in DBMS using MySQL and Python 3, ChatGPT 3, validating my proficiency in database management and versatile programming.

Top Skills:

- Angular Material
- Web Development
- Application Programming Interfaces (API)

My commitment to excellence, combined with a proactive "get-it-done" attitude, enables me to consistently deliver high-quality products on schedule. I am enthusiastic about leveraging my skills to contribute to impactful projects, embrace new challenges, and advance in the dynamic realm of software engineering.

Let's connect and explore opportunities to collaborate on innovative solutions and drive technological advancement. Feel free to reach out—I'm always excited to engage in meaningful discussions within the software engineering domain.

Experience

 **Software Engineer**

Aspire Software Consultancy

Aug 2021 - Present (2 years 4 months)

Responsibilities:

- Managed a team of 3 developers, focusing on bug fixes and optimization of an Angular project.
- Hosted the optimized project on an IIS web server.

Impact:

- Successfully delivered an optimized website by fixing all bugs in the project, leading to improved performance and user experience.

Education

Shree Mahavir Education Society's Nashik Sanghavi College of Engineering

Address: Mhasrul Varvandi Road, Village Varvandi, Nashik-422202 Taluka:

Dindori District: Nashik

Diploma, Computer Engineering

2015 - 2018

SNJB's Late Sau. Kantabai Bhavarlalji Jain College of Engineering Chandwad

Nashik

Bachelor of Engineering, Information Technology

2018 - 2021

Licenses & Certifications

Database Management Systems- MySQL - Udemy

UC-7116RLZR

Web Development Masterclass - Complete Certificate Course - Udemy

UC-84bde5e5-38c7-449e-840c-bc2af2fad984

ChatGPT Complete Course Prompt Engineering and My GPTs - Udemy

UC-9dcd950a-fc04-4a16-abOd-08d4ca3400f4

Skills

ChatGPT • Prompt Engineering • JSON • Python3 • Machine Learning • Web api • Node.js • C#
in .NET • Databases • Application Programming Interfaces (API)
